EDGEMASTER™ 20 BOLLARD

- **Protects grassed areas from vehicle damage.**
- **Attractive appearance will complement traditional or contemporary landscapes.**
- **Quick and easy to install.**
- **A Ground Level Marker helps ensure the bollard is installed at the correct depth.**
- **A Ground Fixing Peg is available as an optional extra for adding even greater strength and impact-resistance to the bollard.**
- **The bollard has a 20mm recess for optional retroreflective or decorative banding.**

Edgemaster 20 offers a safe and attractive solution to prevent cars mounting grass verges.

(Non Highways Use)

1 x 20mm Decorative Band

Colours:

Red

Blue

Green

Yellow

Black

Please telephone our Sales Office on 01253 600411 if retroreflective banding is required.

FIXING OPTIONS

Below Ground Extended Base.

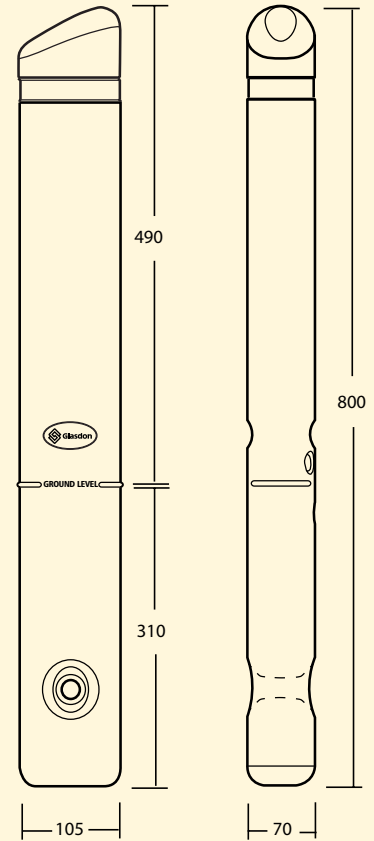

Edgemaster 20 can be easily sited into soft earth or concrete foundations. The contour of the extended base provides a secure anchor.

Ground Fixing Peg

Below Ground Extended Base with Ground Fixing Peg.

A Ground Fixing Peg can be attached to the base of the bollard, if preferred. The peg acts like an anchor, to provide secure installation and add even greater strength and impact-resistance. Bollards installed in very soft earth may benefit from the extra stability the peg provides.

* Durapol material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2000 test procedure. Durapol material will not chip or rust, is easy to clean and never needs painting.
