

# EDGELINER<sup>TM</sup>

**The durable mini bollard that has the edge on ordinary posts!**

- ✓ **Protects grassed/landscaped areas from vehicles, cyclists and pedestrians.**
- ✓ **Controls pedestrian routes to and from car parks.**
- ✓ **Can be used on public roads to protect kerbside areas.**
- ✓ **Reserves parking spaces for personnel or visitors.**

#### COLOUR CHOICE

EDGELINER shown in White and Millstone (with optional Gold band). Also available in Black, Sandstone & Granite.

**EDGE LINER** is ideal for on-site applications where posts are needed to delineate and demarcate: Universities, Colleges, Schools, Hospitals, Corporate Head Offices and Industrial Sites, Retail and Business Parks, Hotels, Holiday Centres, Leisure and Tourism Areas.

**FOR USE ON ROADS - EDGE LINER** can also be used on public roads, for example in residential locations, to protect kerbside areas. Far safer and more effective than placing rocks and other obstructions on grass verges.

**AESTHETIC DESIGN**

Highly attractive appearance will complement landscaped areas, either in traditional or modern style environments. EDGE LINER is slightly textured to deter defacing. Available in White or Black or a choice of three attractive stone-effect colour options (please see below).

EDGE LINERS with ENSIGN™ Cycle Route Marker.

**CO-ORDINATES WITH OTHER LANDSCAPE FURNITURE**

Ideal for prestigious locations. EDGE LINER is part of the co-ordinated NEOPOLITAN™ range which includes Litter Bins and taller Bollards.

PLAZA® Litter Bin.

**IMPACT-RESISTANT**  
EDGE LINER's impact-strengthened Durapol®\* material construction minimises damage from kicking and parking nudges.

**LOW COST**

With no maintenance and simple installation, EDGE LINER is the cost-effective solution for delineating boundaries over long distances, such as driveway verges.

**NO MAINTENANCE**

No costly painting or treatment is required. Manufactured from Durapol, EDGE LINER will never rot. Totally maintenance-free and weather-resistant. (Surface may be cleaned with soapy water if required.)

**EASY, SECURE SITING**

EDGE LINER's one-piece construction means there are no parts to assemble or lose. Installation is easy. Simply plant and backfill into soft earth, or concrete into tarmaced or paved areas. The contour of the extended base provides a secure anchor. EDGE LINER can be filled with concrete or sand before installation if preferred, for even greater impact-resistance.

**SPECIFICATIONS**

Overall Height: 786mm  
Depth below ground: 276mm  
Diameter of main body: 120mm  
Weight: 1.3kg  
Colours:

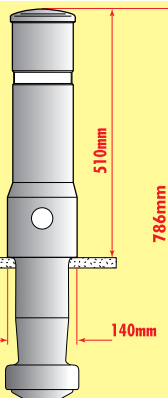

**STANDARD**
